

SKYVAC™ the World's Renowned Professional Gutter & High Reach Vacuuming System

The sky's the limit..... with this revolutionary gutter and high reach cleaning system

The unique user friendly design of SkyVac cleaning systems offer many advantages:

- NO MESS! SkyVac sucks gutters clean using a powerful, custom-built wet & dry vacuum system
- No need for expensive scaffolding, ladders or high access equipment
- Meets the latest Health & Safety requirements to provide a safe solution for cleaning at height
- On board camera for precision cleaning
- Light and easy to use
- Allows access to restricted roof areas such as above conservatories
- High reach internal vacuuming system for use in areas such as restaurants and retail shopping areas
- For both domestic and commercial properties

Carbon Fibre Technology

SkyVac Carbon Fibre poles are manufactured using **maximum carbon content** to give major advantages in strength, rigidity and lightness.

Each 1.5m SkyVac pole weighs just 305g – three times lighter than aluminium equivalents!

Other systems tend to use a composite mix containing more glass fibre, making poles 25% heavier than SkyVac poles – this is an important factor, with SkyVac poles offering greater manoeuvrability and reducing muscle fatigue when cleaning at height over long periods.

Internal SkyVac 30

Suitable for: **Internal High Vacuuming**

Included as Standard in each kit

- Commercial vacuum
- Carbon fibre poles **1.5** metres long
- 6 metres of flexi pick up hose
- 4 Assorted internal brush tools
- Tool holder
- Pole and accessory carrying bag

Vacuum specification

- Air flow Movement: 3800 Litres per minute
- Motor wattage: 1500 max
- Container capacity: 37 Litres
- Mains connection: 240 volt or 110 volt

Choose your height package

- 6 metres (20 feet)
- 7.5 metres (25 feet)
- 9 metres (30 feet)
- 10.5 metres (34 feet)
- 12 metres (40 feet)

Internal HEPA SkyVac 30

Suitable for: **Internal High Vacuuming**

Included as Standard in each kit

- Commercial vacuum
- Carbon fibre poles **1.5** metres long
- 6 metres of flexi pick up hose
- 4 Assorted internal brush tools
- Tool holder
- Pole and accessory carrying bag

Vacuum specification

- Air flow Movement: 3500 Litres per minute
- Motor wattage: 1300 max
- Container capacity: 27 Litres
- Mains connection: 240 volt

Choose your height package

- 6 metres (20 feet)
- 7.5 metres (25 feet)
- 9 metres (30 feet)
- 10.5 metres (34 feet)
- 12 metres (40 feet)

Commercial SkyVac 75 (Wet & Dry)

Suitable for:

Commercial & Domestic Gutter Cleaning

skyVac™ SkyVac Commercial 8 Pole Package

Included as Standard in each kit

- Commercial Wet & Dry vacuum
- 100%** carbon fibre poles **1.5** metres long
- 6 metres of flexi pick up hose
- Crevice tool
- Steel dirt breaker
- Tapered end tool
- Daily end tool and long reach tool
- 135 degree blue tool holder
- 180 degree blue tool holder
- Pole and accessory carrying bag

Vacuum specification

- Air flow Movement: 7166 Litres per minute
- Motor wattage: 2600 max (2 motors)
- Container capacity: 72 Litres
- Mains connection: 240 or 110 volt
- Huge suction hold power of 94 inches of Water Lift/Grass Lift (Typical 3 motor vacuum will give 90" Water Lift)

Choose your height package

- 6 metres (20 feet)
- 7.5 metres (25 feet)
- 9 metres (30 feet)
- 10.5 metres (34 feet)
- 12 metres (40 feet)

Industrial SkyVac 85 (Wet & Dry)

Suitable for: **Industrial, Commercial & Domestic Gutter Cleaning**

skyVac™ SkyVac Industrial 8 Pole Package

Included as Standard in each kit

- Commercial Wet & Dry vacuum
- Carbon fibre poles **1.5** metres long
- 6 metres of flexi pick up hose
- Crevice tool
- Steel dirt breaker
- Tapered end tool
- Daily end tool and long reach tool
- 135 degree blue tool holder
- 180 degree blue tool holder
- Pole and accessory carrying bag

Vacuum specification

- Air flow Movement: 6600 Litres per minute
- Motor wattage: 2600 max (2 motors)
- Decibel level:
- Container capacity: 78 Litres
- Mains connection: 240 volt or 110 volt

Choose your height package

- 6 metres (20 feet)
- 7.5 metres (25 feet)
- 9 metres (30 feet)
- 10.5 metres (34 feet)
- 12 metres (40 feet)

Key Features Twin Vacuum Motors giving huge suction power of 150 inches of Water Lift (Most 3 motor vacuum will give 90" Water Lift) All Steel chassis with Stainless Steel container, Tipping Chassis, Multi Purpose Washable Cartridge Filter, Locking Front Castors.

Non Recordable Camera and Monitor

The portable wireless camera system is designed for multi-functional use.

Both monitor and camera have a built in, re-chargeable battery.

The camera also features Night Vision facility

Features:

- 1) **Robust Build**
- 2) **Auto power feature - Monitor LCD will auto switch on when camera is powered on, and auto shut off when camera is powered off.**
- 3) **4 channel selection**
- 4) **2.5"LCD Screen**
- 5) **Car and Mains Charger**
- 6) **Padded Carrying Bag**
- 7) **Weather proof camera cover**
- 8) **Sun-blocking feature – when sun shines into the camera, system will block out the sun**
- 9) **Working time 5 hours**
- 10) **70 metre range**
- 11) **Light weight Camera only 84 grams**

SkyCam™ Wireless Recording Camera System

Why Choose SkyCam?

- SkyCam has been specifically designed to work **Outdoors** in harsh environments
- Robust Construction
- Water Proof Monitor and Camera
- Rubberized Drop Proof Protective Jacket
- Unique Zoom Facility
- On-Board Recording
- New Charging Facility Allows You to Charge Both Monitor and Camera Simultaneously
- Easy User Large Operational Buttons
- Night Vision Facility
- Padded Camera Bag

SkyCam features the **largest screen** on the market for portable wireless camera systems and is designed for multi-functional use, allowing you to see and record images inside the gutter from ground level, ensuring nothing is missed.

The cable free system eliminates trailing wires and the need for a second man to operate the pole and camera.

Both monitor and camera have built-in rechargeable Lithium Ion batteries.

The recordable system incorporates a zoom facility and allows you to take video or photos directly to an SD card to print or email for your customers, offering total accountability and a great opportunity to secure regular maintenance programmes.

- Monitor can capture Image (JPG) and Video (Video 640 x 480) in micro SD Card (not included).
- Zoom facility
- USB port connects to your PC to download image and video
- Full Colour 3.5" LCD Screen
- Robust design
- Up to 3 hour's operational time per charge
- Up to 35 hours video recording and 1000 image capacity

Monitor specification

Video resolution 640x480
 Receiving Frequency 2.4MHz
 Rechargeable Li-battery 2hr time
 Dimensions (W x D x H) 105 x 90 x 40mm
 Weight: 240g

Camera

LED Night Vision Range 3 metres
 Wireless Transmission Distance 75 metres
 Waterproof structure

SKYPOLE - Professional High Reach Inspection System

Day or Night! ... No Ladders, scaffolding, scissor lifts or cherry pickers required...

Please note the SkyCam system can also mount on our carbon fibre inspection poles that can reach up to 40ft

Our light weight telescopic poles can elevate our cordless camera up to 11 Metres (36ft) not including operator; the system is completely wireless, so no trailing leads.

The SkyPole & SkyCam can even record the footage directly on a SD card ready for emailing. Our cameras and monitors are waterproof, convert to night vision automatically and have one touch zoom facility.

Our carbon fibre poles are one of lightest poles on the market, but are precision-engineered to be tough and rigid.

All our poles are built to commercial grade and include swivel neck camera attachments and monitor pole clamp

Typical Usage

High Level Building Maintenance indoors & outdoors
Gutter and Roof Inspection
Security and Surveillance

Plus many more applications....

CHOOSE YOUR POLE HEIGHT REQUIREMENTS.....

SkyPole (with Camera Mount)
24ft (Carbon fibre composite)
34ft (Carbon fibre composite)
46ft (Carbon fibre composite)

SKYVAC Internal Cleaning Accessories

SKYVAC Generators

Portable Power for your SkyVac System

SkyVac Generator

A great commercial grade mobile machine housed in a steel tubular chassis with folding handle.

Suitable for all SkyVac models.

No assembly required, ready to use out of the box by just adding oil and petrol.

- 4kVA Peak Power
 - 3.5kVA Rated Power
 - 15.6 hrs run time
 - Steel Fuel Tank
 - Fuel indicator
 - AVR for Clean Power
 - Pull Cord Start
- | | |
|-------------|----------------------------------|
| Noise Level | 72 dB(A) |
| Sockets | 1 x 230v 16amp
1 x 110v 32amp |
| Run Time | 15.6 Hrs |
| Fuel Tank | 25 Litres |
| Dry Weight | 82 Kg |
| Warranty | 1 year or 1500 hrs |

SkyVac Genie Generator

A Robust, reliable generator powered by Honda

Suitable for all SkyVac models.

No assembly required, ready to use out of the box by just adding oil and petrol.

- 5kVA Peak Power
 - 4kVA Rated Power
 - 3.7 hrs run time
 - Steel Fuel Tank
 - Honda 4 stroke engine
 - Low Oil level Shut Off
 - Pull Cord Start
 - Full wrap around protective steel frame
