

# GHIBLI RIDER 65 SCRUBBER DRYER

The new Ghibli Rider R 65 compact ride on scrubber dryer has been designed with the operator in mind, incorporating simplistic controls with optimum ergonomics for ease of use and total comfort.

The combination of a 65 litre solution capacity, 650mm cleaning path and long running time offers a high productivity of 3250m<sup>2</sup> yet the Rider R 65 features incredible manoeuvrability, cleaning close to walls in small areas and with the ability to make a full U-turn in just 115cm of floor space.

These attributes make the Rider R 65 the perfect choice for those who need to clean in the most narrow and congested areas and low operating noise allows for day cleaning in sensitive areas like hospitals and schools, thanks to the low noise level.

Equipped with front traction, THE Rider R 65 features an innovative brush head system with four small brushes surrounding the driving wheel and delivering excellent down pressure to achieve optimum floor coverage and cleaning results, even in small spaces or congested areas.

Clever design of the Rider's compact 750mm squeegee allows it to easily follow every movement of the machine for excellent drying performance on all hard floor surfaces, even on tight curves and when making U-turns.

The BC version, equipped with external battery charger and battery set (105 Ah), allows almost 3 hours of uninterrupted cleaning!

Clear & Simple Controls

Easy Access to Brushes & Recovery System

Unhindered Access for Service & Maintenance

Incredible Manoeuvrability in Small Spaces

## *Ride-On Convenience For Restricted Spaces*

# GHIBLI RIDER 65 SCRUBBER DRYER

## FEATURES

Cleaning width	650mm
Squeegee width	750mm
Productivity (theor./practical)	3250/1950m <sup>2</sup> /hr
Power supply	Battery 24 V
Installed power	1650w
Advancement	FrontTraction

## BRUSHES

Diameter - Pad x No	180mm/ 7" x 4
Motor rating x No	100w x 4
Motor speed	190rpm
Down pressure	20.4kg

## TRACTION

Motor rating	700w
Driving speed	5km/h
Hill climbing ability	5%

## VACUUM

Motor rating	550w
Airflow rating	30 litres/ second
Noise level	64 dB(A)

## TANK

Type	Double
Solution tank	65 litres
Recovery tank	65 litres

## DIMENSIONS

Weight (empty/with batteries)	140/220kg
Dimensions	1150 x 780 x 1425mm

## STANDARD ACCESSORIES

Polypropylene brush	7" Ø 0,6
External battery charger	24V 20A
Battery set	2x 12V 105 Ah
Set rubber squeegee blades	750mm

## OPTIONAL ACCESSORIES

Pad driver	7"
Tynex brush	7"
Set polyurethane squeegee blades	750 mm
