Zoono GermFree Hand Sanitiser

Zoono®'s Germfree-24 Hr Hand Sanitiser kills germs and stays active for up to 24 hours to provide all-day protection against C-19 and other pathogens.

Hands can be washed and dried as normal during the day without washing off the protective shield it creates.

| | | |
|-------|---------|--------|
| 50ml | K005023 | £5.20 |
| 300ml | K030023 | £12.87 |
| 500ml | K050023 | £15.99 |
| 5ltr | K500023 | £99.99 |

Sychem Foaming Hand Sanitiser

Sychem hand sanitising foam offers safe, effective, user-friendly skin cleansing, disinfection, and sanitation. In addition to high levels of anti-microbial efficacy, Sychem is fragrance free, water based, and both sanitises and moisturises the skin simultaneously. Its alcohol-free qualities mean hands are not left feeling dry or tacky while its foam consistency means that the product goes 3 x further than standard hand sanitising gel.

| | | |
|-------|--------|-------|
| 150ml | SYC001 | £5.57 |
|-------|--------|-------|

Sani-One Hand Sanitiser

SaniOne Hand Sanitiser is a multi-purpose product with a unique environmental profile.

Free from alcohols, it provides rapid protection against harmful bacteria and viruses without the need for water or drying.

Sanione also kills 99.9% of all known germs associated with COVID-19 on hard surfaces

| | | |

Tersano Lotus Pro System

The Lotus Pro is ideal for commercial use, producing many litres of Stabilised Aqueous Ozone at the press of a button. Simply switch on, wait for the light to go green and start filling!

SAO can be used to fill buckets, spray bottles, steamers, scrubber dryers and most other cleaning equipment.

Stabilised Aqueous Ozone is a powerful oxidizer proven to clean effectively, destroying a host of germs, bacteria, and other contaminants on surfaces, which helps to deodorise and sanitise.

SAO looks, feels and smells like ordinary tap water but tap water around the world contains varying types and amounts of minerals in the water. These minerals affect the performance of aqueous ozone.

Our cartridge adjusts the minerals in the water, stabilizing the tap water so that regardless of where in the world your tap water originates from, it is consistent and maximised for cleaning and sanitising performance.

SAO has been certified safe by the top regulatory bodies around the world and is safe for use in the most sensitive environments. From governmental institutions to independent test laboratories and sustainability organisations, stabilized aqueous ozone is a safe, sustainable alternative to traditional chemical cleaners and sanitisers.

| | |

| STORM Sprayer with JET3 | 24025 | £1018.00 |
| STORM Sprayer Only | 24025.2 | £159.00 |

FIMAP E-SPRAY Electrostatic Sprayer

The Fimap E-Spray is a professional battery-powered spray gun to apply solution in a very fine, electrostatically-charged mist which is attracted to surfaces with a "wrap-around" effect, reaching every point of the area to be treated. The settling solution droplets create a sanitising coating on surfaces. Solution adheres quickly to all surfaces, even curved ones, does not create coarsely accumulated droplets and reaches even hard-to-access areas. Sanitiser is evenly distributed over the entire surface, providing 360° coverage to increase the quality of disinfection. 3 nozzles create droplets of 40, 80 or 100 microns, according to needs and applications. Compact design allows operators to sanitise in small rooms such as bathrooms and offices. 1 litre capacity as standard, 2 litre "Long Range" Backpack available

Use our **CORONAGARD R7** or **ZOONO Z71** for lasting surface protection!

| | | |
|---------------|---------|---------|
| FIMAP E-SPRAY | 32003.1 | £945.00 |
| BACKPACK | 32003.3 | £219.00 |

i-cover 1.0

A long running, battery-powered cold mist generator for efficient surface disinfection, designed to make the job fast and thorough.

i-Cover 1.0 features a unique, interchangeable colour-coded nozzle system to optimise surface coverage in different environments.

Cable-free, it may be carried by hand, worn on the shoulder or back, or transported with a trolley system and offers up to 18 hours' performance from a single charge.

| | | |
|----------------|----------------|----------|
| Ex batteries | IM10.FCT.0000B | £783.58 |
| With batteries | IM10.FCT.1115B | £1150.25 |

i-mop XL

i-mop XL is a full-size scrubber dryer with the flexibility of a flat mop. The i-mop features a high-speed twin brush scrubber drier deck with a working area of 46 cm (18 inches), with unmatched agility. The two counter rotating brushes give a smooth experience and allows control of the machine even with one hand. Its flexibility means it is possible clean around and underneath objects.

The i-mop allows a quick change in chemical by simply changing to a different solution tank and proceed to fill, refill and empty the machine easily.

| | |
|-------|-----------|
| 31000 | £3,199.00 |
|-------|-----------|

i-mop XXL

The i-mop XXL is a full-size scrubber dryer that comes with a larger scrub deck & new power management system. This innovation allows the user to clean up to 2300 m2 in just an hour, changing how a larger auto scrubber should look, feel & handle.

i-mop XXL can save time and cut down time on logistics in larger environments together with approximately 20% labour saving compared with a conventional walk-behind auto scrubber with a size of 50 to 75cm.
