

NON-TOXIC TO CHILDREN,
ANIMALS AND VEGETATION

Ice Melt

Original

FOR PLATFORMS, WALKWAYS AND CAR PARKS

Magic Ice Melt Original is the time honoured choice of cold weather management strategists worldwide. It melts ice fast, is non-corrosive to metal and concrete, non-toxic to children and animals, will not burn grassy areas or other plant life, gives exceptional coverage and will not damage polished flooring if walked inside.

- DOES NOT CORRODE METALS OR CONCRETE
Ideal on platforms, steps, stairs, bridges, car parks and around trackside.
- NON-TOXIC TO HUMANS AND ANIMALS
Will not harm children or pets if eaten or picked up.
- NON-TOXIC TO VEGETATION
Unlike salt will not burn borders, grassy areas or other plant life.
Fully biodegradable.
- LEAVES NO MESS INSIDE
Will not stain carpets or damage polished flooring if walked inside.
- CLEAN, LIGHT AND EASY TO APPLY
No damage to clothing or irritation to skin.
- 6 TIMES MORE COVERAGE THAN ROCK SALT
Light free flowing product makes it easy to apply sparingly.

Ice Melt Original

Product Description

Magic Ice Melt Original is a free flowing, fast acting solid de-icer in the form of white 'prills' or granules. The product is completely harmless to humans and animals and will not attack fabrics or metals, thus allowing application without the need for protective clothing. Magic Ice Melt's free flowing properties means it can be applied sparingly, ensuring maximum economy.

Storage

All packaging types are waterproof and can be stored outside if necessary. Bags and buckets once opened should be well sealed after use to ensure free flowing product at all times.

Safe for children and animals

Magic Ice Melt is completely non-toxic to humans and animals and will not irritate the skin.

Does not harm plant life

When properly dispensed Magic Ice Melt will not burn or otherwise damage lawns, shrubbery or other plant life. The product is also fully biodegradable.

Does not damage carpets or flooring when walked inside

Magic Ice Melt is a clean white prill that does not leave unsightly stains on soft furnishings when tracked inside. Unlike rock salt neither will it leave scratch marks on polished flooring typically found in shops, waiting rooms and receptions areas.

Clean, light and easy to apply

Magic Ice Melt is a light, free-flowing product that is very easy to scatter, particularly when applied with the specialist dispenser also available from Capital Power Clean Ltd. No protective clothing is necessary as the product will neither irritate the skin nor damage shoes or clothing.

Exceptional Coverage

Due to its light, free flowing properties, Magic Ice Melt gives exceptional coverage. Applied sparingly as directed, allowing the granules to bore through the ice and work from beneath, 10 kg of product is enough to cover up to 2000m².

Will not corrode metals or concrete

Magic Ice Melt is completely non-corrosive to metals and concrete, an important factor in why it is the de-icer favoured by airports and railways worldwide.

Applications

Magic Ice Melt can be used on paths, stairs, stairwells, car parks, fire escapes, driveways, roads, bridges, forecourts, loading bays, runways, platforms, construction sites, drill rigs, ports, piers, retail parks, playgrounds, playing fields, all-weather pitches and any other area that requires a fast acting, non-toxic, non-corrosive and easily applied de-icer.
