CAPITAL POWER CLEAN 
protecting your image

The Whirlaway flat surface cleaner cleans up to 20 square metres per minute, increasing productivity, saving 80% on labour costs and minimising operator fatigue.

The rotary head is ideal for fast cleaning of all types of flat surfaces including concrete floors, driveways and patios and can be used with any hot or cold pressure washer.

- 4 versions available: 16" - 24" with brush skirt or swivel castors
- Eliminates striping and achieves a uniformly cleaned surface
- Operator-Friendly: Reduced fatigue and outstanding surface coverage
- Cleans up to 20 square metres per minute
- Durable cover eliminates over spray and damage to surrounding area
- Can be used with hot or cold water up to 276 bar at 30 litres per minute
- Maximum water temperature 80°C
- Supplied with trigger gun & nozzles
