Changing the way you *think* about cleaning

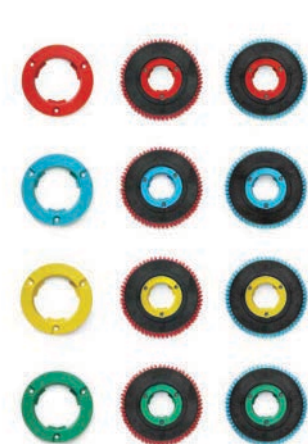

Revolutionary products, inspiring people.
The i-team is a global family of innovative cleaning sales & distribution partners that are dedicated to delivering intelligent, convenient and high-quality cleaning machines, products and concepts to the industry.

i-mop® XL & XXL

The first of its kind, the award-winning i-mop solves the problems of traditional floor cleaning systems by combining the flexibility of a mop with the power and speed of industrial scrubber driers.

We found out that most areas are still being cleaned by mop and bucket, because other floor machines are simply not flexible enough to work in both small and large spaces. The i-mop makes it possible to clean any hard floor surface, with freedom of movement and great ease of use. The i-mop isn't just designed for cleaning, it's designed for the cleaner.

Full size scrubber dryer.

i-store®

i-vac 5®

The i-vac 5 is a powerful machine that gets the job done. A well trusted name in the community, the i-vac 5 has surprised every user with its proven mobility, design and power. The i-vac 5 is ideal for use in offices, households, and commercial environments.

In for a smooth ride.

i-vac 6®

The i-vac 6 is the epitome of the modern day vacuum cleaner. All functions and elements of the i-vac 6 have been developed based on feedback from users and the insights that come from using different machines years on end.

The result is a vacuum cleaner built for life, reducing cost in use and environmental impact.

i-vac 30UR®

Vacuuming on another level. Years of innovation and development have perfected the i-vac series, and the 30 UR upright series is the culmination of feedback from the cleaning industry. The adjustable ergonomic handle, extra long reach hose, lie-flat technology, soft rear castors and the patented Whizzo bag-full/blockage indicator complete this beautiful machine.

i-vac 9B®

The innovative i-vac 9B battery powered vacuum cleaner utilises a powerful motor and offers a longer runtime than other cordless machines. Powered by i-mopXXL batteries for a longer operating time and freedom of movement across any type of surface.

i-scrub 21B®

Twin disc scrubbing action with the flexibility to clean vertical surfaces due to its adjustable head & 360 degrees of free-range motion. With a powerful motor delivering 400rpm, the i-scrub 21B is a versatile and powerful machine for scrubbing any surface. Incorporating simple push-button solution dosing, i-scrub 21 can also be easily converted into a hand-held unit for polishing. Powered by Li-ion battery technology to ensure consistent performance throughout the working period.

i-scrub 26H®

The hand held microfiber cleaning tool with integrated LED or black light ensures highest levels of cleanliness. Complete with patented soft-edge technology, i-scrub 26 allows the user to effectively clean curved surfaces. Need to reach overhead? Simply switch the handle for a telescopic tube, and you are good to go!

Small effort.
Big impact.

i-scrub 30EM®

Single-disc scrubbing has never been so easy! Advanced orbital technology offers an orbital movement of approx. 1750 orbits per minute with no side forces so everybody can operate it without training. With a detachable power cord for easy replacement and easily accessible controls, the i-scrub 30EM is a nifty machine with a lot of power. The integrated water tank perfectly applies cleaning solution to the floor. We've even created a rubber bumper to prevent damage to furniture and walls, allowing you to work with total confidence!

wall charger®

i-gum®

Fast, reliable and easy operation for efficient, non-disruptive chewing gum removal on outdoor and indoor surfaces. i-gum incorporates a comfortable backpack system for complete freedom of movement and the ergonomic lance assembly features fingertip controls for simple operation.

A built-in trolley system also offers the option to wheel the machine, reducing fatigue.

i-gum delivers a safe, pH neutral enzyme steam mixture to dissolve chewing gum, which can then be easily brushed away. Available in battery or gas powered options.

Slipmeter

Be on the safe side!

Floor cleaning methods can lead to unsafe conditions and it is crucial that any moisture is recovered as quickly as possible. The i-mop manages this in 30 seconds. Seeing is believing using the Slipmeter, and with the i-mop you are always in the green.

i-land®

Our goal is to simplify the entire cleaning process and increase your satisfaction while you clean. For long shifts, large buildings and on-site projects, you are going to need a work station that carries all your equipment. That's why we created the i-land. An all-in-one solution, which ensures you have everything you need in one accessible and convenient trolley, the i-land eliminates unproductive traveling time!

Simply buy your own island.
